TECHNICAL INFORMATION

FOUNT CLEANER

Description of the product:-

FOUNT CLEANER is a water based Dampening Circuit cleaning agent. A concentrated liquid to deeply clean incoming and outgoing pipes in the dampening circuit of residue from paper, ink etc. **A great maintenance product for your press.**

Directions for use:-

Use at 5.0% concentration under the water control management by volume dose methods.

- 1) Prepare a diluted solution with 5% concentration in a circulation tank.
- 2) Fill the pre mixed solution sufficiently in the fount reservoir to allow free circulation.
- 3) Adequate circulation is recommended for the solution to effectively clean and de-congest the system.
- 4) Remove the exhausted solution and rinse the system thoroughly with plenty of fresh water.

Packing available: - 25 liter Plastic Container
5 liter Plastic Container
