## TECHNICAL INFORMATION

---

# Calcium Cleaner

### Characteristics:

Formulated to dissolve calcium deposits not just on the surface of the rollers, but deep down into the rubber to give you really clean rollers. Calcium build ups can affect production costs and print quality if they are not treated.

### Application :

Rubber Rollers: Clean all ink from press rollers. After rollers are clean and dry, disengage wash-up blade and apply product. Allow to run in for 2-3 minutes. Engage wash-up blade and rinse with warm water.

Chrome Rollers: Wipe on cylinder and allow to penetrate for one minute. Remove with warm water.

**Packing available:** 1 Lit
